Burton, Brian K. The Peninsula & Seven Days: A Battlefield Guide. Lincoln, NE: University of Nebraska Press, 2007. Not just a guidebook to the numerous sites involved in the campaign, this study includes description and analysis of local actions and vignettes about units and individuals.

Freeman, Douglas S. Lee’s Lieutenants, Vol. 1: Manassas to Malvern Hill. New York: Charles Scribner’s Sons, 1942. Still an excellent study on the personalities of the various Confederate generals and how Lee tried to get them to work together.

Sears, Stephen. The Civil War Papers of George B. McClellan: Selected Correspondence, 1860-1865. New York: Ticknor & Fields, 1989. McClellan’s frequent letters to his wife reveal what he was really thinking during the campaign.

Webb, Alexander S. The Peninsula. New York: Charles Scribner’s Sons, 1891 (later reprints available). An objective account of the campaign by an officer who participated in it. Webb does not hesitate to criticize both McClellan and Lincoln for their mistakes.

Note: There are unfortunately no monographs on the individual engagements of the Seven Days Battles. There are a number of good biographies on the leading Confederate participants in the campaign (A.P. Hill, D.H. Hill, Huger, Jackson, Lee, Longstreet, Magruder, Stuart) but little of significance has been written on the key Union commanders other than McClellan.
